	نام و نام خانوادگی : شماره دانش آموز: رشته تحصیلی : پایه تحصیلی : تاریخ آزمون : ساعت شروع : مدت آزمون : 70 دقیقه تعداد صفحات : 4 صفحه 3									
11	L : Please, read the passage carefully and answer the question . (4. Points) Plants and animals both need a place to live .this natural place is their habitat. All living things get what they need from mountains to deserts. Different habitats are home to different animal. These animals live well together and they all do things to help keep the whole habitat healthy and in balance. If a part of a habitat is missing, some of the plants and animals can t live there anymore. Even animals like worms and cockroaches are really important in a habitat-they eat the dead plants and recycle them back into the soil, which helps other plants to grow. Sadly , people are destroying many habitats in different parts of the world. They burn down the forests, cut down the trees and pollute lakes and the rivers . Without our help, these habitats and the animals that live in them could become extinct. <table><tr><td></td><td></td><td></td><td></td></tr><tr><td>Worm</td><td>Cockroach</td><td>Forest</td><td>Balance</td></tr></table> A. True or False 1. Animals get air, water and food from their habitats. () 2. polluting lakes and rivers help save the animals habitats.() 3. worms are dangerous for the plants. () 4. cockroaches play an important role to keep the nature in balance. ()					Worm	Cockroach	Forest	Balance	
										
Worm	Cockroach	Forest	Balance
