14	4 Reading متن زیر را بخوانید و به سؤالات به صورت خواسته شده پاسخ دهید. Suppose that you have a very small vocabulary. Also suppose that you don't know how to get the meanings of new words. When you come across an unfamiliar word, that word may stop your understanding of the passage. Your eyes pause too long on the word as you try to get its meaning. You go back and read the word again, try to get its meaning from the context. As a result, you read much more slowly than you should, and you find that the difficult word is a wall to your comprehension. Suppose that you know many words and that you are skilled in finding the meanings of new words. Your eyes move quickly and you read rapidly. You comprehend what you are reading. If you have a good vocabulary, you are more interested in reading. 45. What may happen when you come across an unfamiliar word? 46. How does having a good vocabulary influence your reading habit? 47. What is the closest synonym for the word “suppose”? a. believe b. accept c. understand d. imagine 48. Unknown words in a passage may make comprehension easier. a. True b. False 49. The meaning of a new word may be guessed from the text. a. True b. False		
15	4 متن زیر را بخوانید و گزینه صحیح را انتخاب کنید. What do people need to light their homes and drive cars? Energy! Energy gives power to many things we need and use. Most of the energy people use comes from coal, oil, and gas. They are called fossil fuels. Those fuels come from fossils under the ground. Fossils are the remains of plants and animals that lived long ago. Burning fossil fuels pollutes the air. The air becomes dirty. That can be harmful to people, animals, and plants. Now more people are using clean energy. Such energy does not pollute the air. Two kinds of clean energy are wind power and solar power. Solar power: The sun gives Earth heat and light. Some homes have solar panels on the roof. The panels collect sun light and turn it into electricity. That is a kind of energy. It lets people do many things. For example, we use electricity to light our homes and watch television. Solar power can also be used to warm up the water in our homes. Wind power: People can turn wind energy into electricity. Wind turbines are machines that spin when the wind blows. They make electricity. 50. Where does most of the energy that people use come from? a. the wind b. plants c. fossil fuels d. the sun
